

1. Covered Grills

Covers hold in heat and smoke for terrific flavor and also keep rain and snow out of the firebox prevent rusting and prolong the life of the grill. Adjustable side vents allow draft control on the coals and venting for the smoke. The grill rotates 360° on the base. Large coil spring handles are attached to the top for easy opening. The top is held open by a bracket with a safety stop to prevent the cover from accidentally closing. The grate tips for easy firebuilding and cleaning. The base is 3/4" outside diameter pipe for permanent installation into concrete. *Side utility shelf (shown) is optional.*

2. Multi-Level Park Grill

These versatile heavy duty grates can be tipped up for fire building or ash cleanup, but cannot be removed. Adjustable to 4 positions for regulating cooking temperatures. Continuous rotation in either direction and die-formed detents provide superior draft protection. Handle grips are made from heavy flat bar stock. Installs on a 40" long steel pipe base without tools. Theft proof and highly resistant to vandalism. The high walled sides on the K20 model should be considered in fire sensitive areas. *The optional shelf is available on the K20 model only.*

3. King Size Park Grill

This heavy duty all steel construction King Size Park Grill provides a total of 640 square inches cooking area on two grates in a back-to-back configuration. Two independent 8" high compartments allow for building differently sized fires for different cooking needs and greater control. Swivel mechanism allows for 360° rotation in either direction for better draft control. Grates tip completely back out of the way for fire building and cleanup and adjust from 3/4" to 10 1/2" above the bottom of the firebox. Standard 3 1/2" O.D. 40" long steel pipe allows for permanent base installation in a concrete footing. Grill is secured by a theft-proof locking device. Handy 3/16" thick utility shelves available for one or both sides. Finished in high temperature, heat resistant, nontoxic black enamel.

4. Group Park Grill

This grill features 2 separate cooking grates that adjust to 4 different levels allowing the chef to tend different foods at the same time. Each grill measures 14" x 36" for a total of 1,008 square inches of cooking surface. Heavy duty coil spring handles. The firebox is 3/16" thick steel with a large formed ash lip to help prevent hot coal fall out. The fire box is strengthened on the bottom with support gussets and mounts on a single 4" square steel pedestal with base mounting plate.
